The following is a list of great books for students to read!

Don't be afraid of a challenging book. Often, interest and desire will overcome reading ability. Let your children decide what they read!

If your child doesn't find a book interesting, don't force them to finish it. They should find something that captivates their interest.

If a book proves too challenging, it is okay to read to it to them or have them listen to the audiobook.

Let us know what other books or series your child likes to read!
